

Our Sustainability Policy at The Fleece inn

The Fleece Inn Lancaster is a locally owned and operated business that values sustainability and environmental responsibility. We recognize the importance of preserving our natural resources for future generations and strive to do our part in reducing our impact on the environment.

Our mission is to provide a warm and welcoming atmosphere where guests can enjoy locally sourced food and drink offerings. We believe that environmental sustainability and the responsible use of resources is key to achieving this goal. We are committed to taking action to reduce our environmental footprint and to promote sustainable practices in our business.

To achieve this, we will:

- Source our ingredients from local and organic suppliers wherever possible.
- Reduce our waste by implementing recycling and composting programs.
- Reduce our energy consumption by using energy-efficient lighting and appliances, and investing in renewable energy sources.
- Encourage our guests to take part in our sustainability efforts by providing information and resources on sustainable practices.
- Work with our suppliers to reduce the environmental impact of their products and packaging.
- Continuously monitor and evaluate our sustainability practices to identify areas for improvement and innovation.

By taking these actions, we aim to promote a more sustainable and responsible way of doing business, while maintaining our commitment to providing an exceptional guest experience.
